

PROCESS TO GRAPHICALLY DISPLAY TRAVEL INFORMATION
ON A MAP IN ELECTRONIC FORM

ABSTRACT OF THE DISCLOSURE

A system and method for graphically displaying travel information on an electronic map within a network environment comprising: (i) providing a network for transmitting and receiving information among information providers; (ii) receiving an information request based on a flexible set of user-defined travel related criteria; (iii) processing the information request to initiate at least one inquiry based on the information request from a plurality of data tables developed from a database; (iv) receiving at least one response to at least one inquiry; (v) processing at least one response to determine a reply that is responsive to the information request, and (vi) providing a response including an electronic map overlay.
